Apr 21, 2013

South Carolina Public Service Commission

Dear Public Service Commission,

Duke needs to completely quit investing in dirty fossil fuels like coal and natural gas. All new energy sources should be sustainable clean energy, and no more methane, nuclear or coal plants should ever be built. There is no justification for mountaintop removal, fracking, or dangerous nuclear when clean energy exists now as a safe, and completely economically viable alternative.

Sincerely,

John Wagner  
210 Jessamine Ln

Apr 21, 2013

South Carolina Public Service Commission

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Vivian Cruz-ODoherty
